RE: Jordanville Wind Farm: Avian and Bat Work Plan

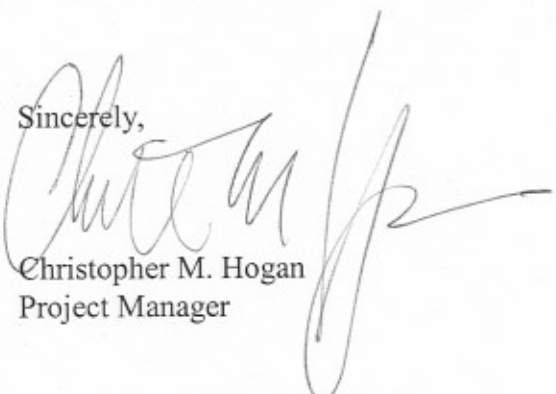

Dear Mr. Brennan:

The purpose of this letter is to provide written conformation that staff from the Department of Environmental Conservation have reviewed and approved the document Jordanville Wind Farm: Avian and Bat Work Plan, dated April 6, 2005. The work plan sets forth an acceptable protocol by which Community Energy will collect data regarding bird and bat resources within the project area.

The Department requests that prior to the start of the fall bird and bat migration season that Community Energy share with staff the results of the spring survey. Staff would like an opportunity to review the spring survey results to possibly determine if adjustments to the fall survey are required.

Please contact me if you have any questions regarding the Department's approval of the above referenced plan.

Sincerely,

  
Christopher M. Hogan  
Project Manager
