Address: 642 Kingdom Road
Mohawk, New York

DUE TO THE STATE OF EMERGENCY RECENTLY DECLARED IN HERKIMER COUNTY AND SURROUNDING AREAS, THE TOWN BOARD OF THE TOWN OF WARREN, AS LEAD AGENCY UNDER THE STATE ENVIRONMENTAL QUALITY REVIEW ACT, HAS EXTENDED THE PUBLIC COMMENT PERIOD FOR THE PROPOSED JORDANVILLE WIND PROJECT. AN ADDITIONAL HEARING HAS BEEN SCHEDULED TO RECEIVE PUBLIC COMMENT ON THE DRAFT ENVIRONMENTAL IMPACT STATEMENT (DEIS) WHICH HAS BEEN COMPLETED AND ACCEPTED FOR THE PROPOSED ACTION WHICH IS DESCRIBED BELOW.

Public comments on the draft environmental impact statement are requested and will be accepted by the contact person until August 4, 2006.

**An additional public hearing will be held:
Thursday July 27, 2006 at 6:30 pm at Owen D. Young School ,Van Hornesville**

Name of Action: Jordanville Wind Power Project.

Description of Action:

Community Energy, Inc. as Jordanville Wind, LLC is proposing to develop a wind- powered generating facility of up to 150 megawatts (MW) in the Towns of Warren and Stark, New York that will include approximately 75 wind turbines, each with a generating capacity of 2.0 MW. Each wind turbine will include an 87- meter (285 foot) diameter, three bladed rotor mounted on a 78 – meter (256 foot) tall steel tubular tower.

The project is proposed to include two meteorological towers, 21 miles of access roads, 41 miles of electrical interconnect, a collection substation, a 0.8- mile long overhead 230 kilovolt (kV) transmission line, an interconnection substation, a centrally located, temporary construction staging area(s), and an operations and maintenance (O&M) facility.

Location:

The project is located in Herkimer County, south of the Mohawk River Valley in the Towns of Warren and Stark. The project area totals approximately 6,225 acres of

private land (approximately 77 separate parcels), and is located approximately 5 miles south of the Hamlet of German Flatts and Village of Herkimer, 5 miles north of the Village of Richfield Springs, and 2 miles west of the Hamlet of Starkville (as measured to the nearest turbine).

Potential Environmental Impacts:

Potential Environmental Impacts from the proposed action include but are not limited to visual impacts, impacts on agriculture, roads, wildlife, water resources, soils, communication facilities and the socio-economic impacts of the project on the community.
